

TACERA Scholarship in Civil and Environmental Engineering

**Bryson
Padalecki**
Junior

Hometown:
La Vernia, Tx

Major: Civil
Engineering

Dear TACERA,

I am honored to be a 2022 scholarship recipient. I am grateful for this generous scholarship because it will help me continue my education at UTSA and to pursue my dream of becoming a civil engineer.

I am currently a junior majoring in civil engineering at UTSA. My goal after graduation is to stay in the San Antonio area and work for an engineering firm. I am especially interested in the transportation side of civil engineering.

This scholarship helps tremendously with the financial burden of my college education. I work several jobs to help pay for my college tuition and this scholarship will help lessen that burden. I hope to one day give back to my community in such a giving way.
